

Why keep your vehicle clean with Swarfega Powerwash?

Keeping your vehicle clean is an indispensable method of portraying a company image of quality and respectability whilst out on the road. Regular cleaning is also important to the overall mechanical maintenance of a vehicle, and is a requirement of some test procedures.

With its extensive range, Swarfega Powerwash has a product to meet any of your vehicle cleaning requirements regardless of size, vehicle type, paint finish or degree of soiling.

Why use Swarfega Powerwash?

The Swarfega Powerwash range consists of nine highly effective, extremely efficient products that each provide the right level of cleaning power to meet your specific requirements. The range is split into three sections to make it easier to choose the right product for your task:

READY TO USE PRODUCTS

Designed to be used with cleaning machinery direct from the drum.

SPECIALIST PRODUCTS

Designed for specific cleaning needs, such as sensitive surfaces, curtain sidings and pre-MOT cleaning.

ECONOMY CONCENTRATE

Designed to give maximum convenience and economy in use.

All the products in the Swarfega Powerwash range can be used on vehicle bodywork, engines and chassis. All the formulas contain additives to prevent the scaling of cleaning equipment, helping to reduce maintenance costs.
